Dear Parent/ Carer

Subject support for GCSE English, Maths and Science.

As your child moves through their GCSE courses it can be challenging to know what their course entails and how best to support them. We usually hold an information evening to share key information for the core subjects of English, Maths and Science before your child moves into Year 11. In lieu of this we have put together the following information to support them in the core subjects.

This can be found using the following link:

<https://www.chathamgrammar.org.uk/year-9-and-10-information>

In this section you will find the following:

Presentations, with audio, outlining the content of the courses

- Introduction to the subject at GCSE
- What the course covers
- How the course is assessed
- What skills are needed to succeed
- What resources students need – including details of those you can purchase via the department
- What work students can do over the summer
- Where can you find more information and contact details for Subject Leaders

You will also find further information for both parents/carers and students.

If you have any further questions, please contact the relevant Subject Leader
